SQL Developer - ETL Developer - Data Analyst

PROFESSIONAL SUMMARY

Result-oriented SQL and ETL developer with 7+ years of experience specializing in Microsoft SQL Server, T-SQL, SSIS, ETL development, data integration, data transformation and enterprise database solutions. Experienced in designing and optimizing stored procedures, developing ETL workflows, performing data validation and quality checks and creating Power BI reports and dashboards to support business decision-making. Strong background in enterprise applications, production support, troubleshooting and collaborating with cross-functional stakeholders to translate business requirements into scalable and reliable data solutions. Completed Ontario College Graduate Certificates in IT Project Management and Cybersecurity & Threat Management, complementing a strong technical background with project coordination and cybersecurity awareness. Currently working in a supervisory role in Canada while actively pursuing opportunities in SQL/ETL Developer, Data Analyst or related data-focused IT position.

TECHNICAL SKILLS

- **ETL & Data Integration:** SSIS, SAP HANA, Exasol, Markit-EDM, Data Integration and Data Migration
- **Databases:** Microsoft SQL Server, Oracle (basic), Advanced SQL (joins, subqueries, data filtering), T-SQL
- **Reporting & BI:** Power BI, MicroStrategy, Excel, Data Profiling, Data Documentation
- **Programming & Automation:** Python, Bash, sFTP scripting, Control-M, C# (basic), Visual Basic (VBA)
- **Data Management:** Data Validation, Data Transformation, Data Governance, Data Quality Assurance
- **Database Development:** Stored Procedures, Triggers, Data Modelling, Database Design & Maintenance
- **Development & Collaboration:** JIRA, Git, SharePoint, MS Project, Agile, Scrum, Waterfall
- **Operating Systems:** Kali Linux, Ubuntu, Windows 10/11, Windows Server (2016/2019)

PROFESSIONAL EXPERIENCE

IT Analyst - ETL Developer, TATA Consultancy Services, Kochi, India 10/2021 - 10/2023

- Designed, developed and maintained enterprise Microsoft SQL Server databases and ETL solutions supporting staffing management applications.
- Developed and maintained SSIS packages, stored procedures and T-SQL scripts for data transformation, migration and integration.
- Analyzed business and technical requirements, translating them into scalable ETL workflows, optimized stored procedures and database solutions.
- Performed data validation, cleansing and transformation to ensure high levels of data accuracy and integrity.
- Developed interactive Power BI reports and dashboards to support business reporting and decision-making.
- Monitored scheduled ETL processes using Control-M, identified production issues, performed root-cause analysis and implemented effective technical solutions.
- Collaborated with cross-functional teams to improve IT processes, communicate technical risks and deliver enterprise data solutions.
- Prepared technical documentation, deployment procedures and system specifications to support implementation and ongoing maintenance.

Technology Analyst - SSIS Developer, Infosys Limited, Bangalore, India 01/2019 - 10/2021

- Developed enterprise ETL solutions using SQL Server Integration Services (SSIS) for retail management applications.
- Designed and optimized Stored Procedures, Views, Functions and complex T-SQL queries supporting enterprise reporting and data transformation.
- Developed business and operational reports using MicroStrategy and Exasol to support reporting, analytics and stakeholder decision-making.
- Prepared Test Strategy, Test Plans and supported User Acceptance Testing (UAT) activities to ensure application quality.
- Investigated technical issues, performed root cause analysis and implemented efficient solutions to improve application reliability.
- Collaborated closely with business users, QA teams and stakeholders throughout the SDLC.
- Supported deployment activities across Development, QA and Production environments.

Senior Systems Engineer, Infosys Limited, Bangalore, India **11/2015 - 12/2018**

- Worked on enterprise investment applications using Markit Enterprise Data Management (Markit-EDM) for data integration and master data management.
- Developed ETL workflows to extract, transform, validate and load enterprise investment data into master and target databases.
- Participated in the complete SDLC including requirement analysis, development, testing, deployment and production support using Agile methodologies.
- Collaborated within Agile/Scrum teams, contributing to sprint planning, development activities, daily coordination and retrospectives
- Maintained source code repositories and supported collaborative development using Git and version control practices.
- Investigated and resolved production issues within SLA timelines through troubleshooting, root-cause analysis and incident management.
- Prepared technical documentation for deployments, incident resolution, change management and support activities.

ADDITIONAL EXPERIENCE

Head Cashier, The Home Depot, Ontario, Canada **03/2024 - Present**

- Manage daily store operations and leads a front-end team to ensure high standards of accuracy and service.
- Resolve technical POS system issues, demonstrating adaptability and problem-solving in a fast-paced environment.
- Demonstrate leadership, communication, problem-solving and multitasking capabilities.

EDUCATION

Ontario College Graduate Certificate - Cybersecurity & Threat Management **01/2025 - 08/2025**
Seneca Polytechnic, Ontario, Canada

Ontario College Graduate Certificate - Project Management - Information Technology **01/2024 - 08/2024**
Seneca Polytechnic, Ontario, Canada

Bachelor of Technology - Electronics & Communications Engineering **08/2011 - 05/2015**
St. Joseph's College of Engineering & Technology, Kerala, India

CERTIFICATION

AWS Academy Graduate - AWS Academy Cloud Security Foundations **02/2025**
